

Learning Experience Schedule

Residents are scheduled for experiences throughout the year in order to allow for learning in various areas. Opportunities for electives are specifically intended to tailor the residency experience to the resident's needs. Residents may elect to work in a required area for more time to gain more confidence and skills (e.g., ambulatory care or internal medicine). Any changes to this schedule need to be in agreement with all preceptors involved, the RAC, and/or the RPD. See learning experience descriptions for additional information.
